***Subject: The Walk of 'LOVE, PRESENCE, CERTAINTY
development against austerity' PASSIVE***

We can no longer continue to act as a bank to the State which pays us when he wants to "tax and Green Certificates" and wants to taxes and contributions everything at once, we can not wait years to have the permissions, we can not be perpetual uncertainty, our children deserve to at least have the certainty that we have left our Fathers and Nature is tired of only being exploited and polluted. So I founded the Association SOSESI and Wednesday 1 May 2013, the month and day of Our Lady of the worker / job, I started walking to go around touching all the provinces of Italy in order to better understand and put at the disposal of Italian all, starting with you who read me and those I meet along the way.

Dear Friend,

first is extraordinarily beautiful keen to communicate the reason for which I am now to express my conscientious and mature decision to give a moment of this Divine gift of life to the Civil Society to which all siam part, ITALY, through the walk of LOVE touring Italy, and the PRESENCE of CERTAINTY with so much JOY and strong DESIRE UNION NATIONAL COMMITMENT and in fostering development against austerity ', for the ITALIAN SOCIAL REDEMPTION, starting from the recovery of the base honest and quiet, all this representing the Small and medium industrial enterprise, agricultural and artisan with all the workers involved.

Wonderful an Italy that has managed with great dignity to face the repercussions of the indiscriminate use of without having to have the real possibility; well, it was thirty years at all levels of false comfort, user antechamber of the economic and social disasters brought by the crisis (World War III), which today must remain as a corner stone in memory and defense that certain errors are not repeatable, especially during five generations involved as today (eighty, sixty, forty, teens, unborn).

In this regard, until a few decades ago, every 25-30 years with the crisis and / or hegemonies were unleashed wars between neighbors and not all because there was a part that oppressed and one part that suffered, but always one of these two parts trying to solve its needs with weapons (ONE PART THE NEED TO ACQUIRE AND THE OTHER THE NEED FOR AND OFTEN DO NOT MISS The revenges ON THE PAST).

Therefore, looking beyond our borders, we were all very lucky not to have wars armies in the world, so-called western, except those wars States of the former Soviet Union, Asia and the Middle East.

Well, there came the armed warfare, but it's got a new war, and today we are in the third world war fought before with the guns CREDIT TO ALL, then with the cannon THE SALE OF DERIVATIVES and ended with the cannon THE LOSS OF PROPERTY ACQUIRED without the possibility of them and to maintain the had. Three big guns, three great moments of the Third World War! Three great moments that have touched before the PEOPLE with the EASY CREDIT, then ENTERPRISES always with the EASY CREDIT, then BANKS - THE PEOPLE - COMPANIES - PUBLIC with resale DERIVATIVES, then back to the PEOPLE and COMPANIES with the sale of seized goods: the result as a social economic damage is not inferior to any armed warfare!

Now we have to rebuild and we are all called to give as much as we can, also to limit the fourth cannon, the sting in the tail, where the People in pain can react in ways beyond the control of the generating CIVIL WAR AND ANARCHY, where at the end to win it are always the most 'SELLING! Not to mention that it can reach an acclaimed DICTATOR, and then return back a hundred years.

This Third World War has seen the loss of a job, has seen the loss of household wealth, has seen the loss of assets, has seen the loss of cohesion popular with the establishment of indifference and intolerance, and saw the beginning the low cost of the war at all costs of labor, where up to 4-5 years ago, many Italian companies to have low labor costs were going to be made to produce abroad, but now they go abroad with the company, family and some specialized collaborator, also with family, leaving the country of origin Italian many unemployed, so that little work has been the subject of an unequal competition with non-EU more and more learned and integrated, as we all we hoped.

And to young people what's left? It will not last much the help they receive from their families today thanks to the board of Parents and Grandparents!

Well, I heard this mission now for three years, but the time was not ripe, nor I was more mature and I still had the belief that, given the ruinous end where we were now destined for the forces of government would put aside the litigation and would have seriously started reforms and the DO.

As an entrepreneur always excited I acknowledged the reality and I want to keep believing, bringing my enthusiasm and encouragement walking around the country.

In the exercise of my business activities farming, animal husbandry, industrial and environmental HAVE ACCUMULATED EXPERIENCE THAT I MUST MAKE AVAILABLE ALL THROUGH THE GIVEN TO DO "DEVELOPMENT"

A defense that I will placing myself totally available to everyone, starting with the direct acquisition of discontent, situations beyond endurance and the secrets of many tips of so many happy people in general and the needs of those not in sight or not known , walking in Italy: this will make! With time to listen, to reflect, to understand, all comparing them with my beloved Italian.

I leave with this walk of LOVE, PRESENCE and CERTAINTY with the Movement SOSESI (Smile, Tranquility, Security) that I founded, beginning in the first day of the month of May (MONTH OF OUR LADY and feast WORK AND WORKER), To promote the development against austerity 'that transformed Italy into a nation of precarious. With the utmost commitment and the desire to forget the sorrows BRINGING LOVE, PRESENCE and CERTAINTY, to immediately make SERENI and then HAPPY those who in their hearts do not see outputs and convert them THAT IS THE WILL! Bringing SMILE, THE SERENITY AND SAFETY, with so many IDEAS and also many DREAMS made of simple things, necessary and achievable, for we have reached the point that what we have here is normal abroad has become needless dreamable.

I want to talk to so many young people, the elderly and mothers with many less fortunate in life and health, with many workers, with many honest people and that there is SERIOUS in Italy, together we must recharge of the Christian Faith where the first verb is to love ourselves and to love your neighbor as such to be loved, a closed cycle of love and availability to defeat the demon that has gorged in us to become selfish, jealous, arrogant and individualistic with the worst habits of the same and consequently cold love to the next.

On Friday evening returning home from the place where I came, and on Saturday and Monday I will make business meetings with my staff, and meetings with customers / suppliers who for thirty years I traveling to Italy (2500-3000 km week), from Tuesday morning to Friday evening I will make them walk. Customers and suppliers warned all and all very willing to meet me, after decades from Cuneo I go from Loro, while the Sunday will be for the Lord, for the family and for those who need and / or pleasure to share a thought, while the Tuesday morning will resume the walk of love SOSESI again from the place left on Friday, having touched this until all the diverse and biodiverse rich Italian provinces of knowledge and essences: the legacy of the genesis of the Mediterranean culture, Greek - Latin - sicula - etrusca - messapica - Samnite - Venetian - Ligurian and Celtic, which became the basis of growth of world culture.

On the website you will find the goals of SOSESI, found the path and walking stages, so you can give notice to those who may be interested to meet me, so you can find what I thought, so that I can have your input, ideas and criticism, for to give a concrete contribution widened, finally if you want to share and be close to me to be with SOSESI also find a way to associate bringing an indispensable contribution to support the same SOSESI, which was created with the savings and the consent of my family, who for years Noris guide me and the children Alessia and Lorenzo, and with my being there.
